

NorthStar Consumer Electronics Pvt. Ltd. Quarterly Sales Intelligence Report

Q1 FY2026 | Internal Business Review
Generated on: 10 May 2026

Executive Summary

NorthStar Consumer Electronics recorded strong growth in Q1 FY2026 driven primarily by increased online sales, strong demand for smart home devices, and expansion into Tier-2 cities across India. Total revenue for the quarter reached INR 42.8 Crores, reflecting a 14.2% quarter-over-quarter increase. The Western region contributed the highest revenue share while wearable devices showed the fastest growth rate among all product categories.

KPI	Q4 FY2025	Q1 FY2026	Change
Total Revenue	■37.5 Cr	■42.8 Cr	+14.2%
Units Sold	84,200	96,450	+14.5%

Accessories	4.6	15%	39%

Regional Revenue Comparison

Customer Insights

- Customers aged 25–34 contributed 46% of all online purchases.
- Mobile app conversions increased by 22% after the February UI redesign.
- Bengaluru, Mumbai, Pune, and Hyderabad remained the top-performing cities by revenue.
- Repeat customers generated 61% of total quarterly revenue.
- Smartwatch bundles had the highest average basket size during festival promotions.

Operational Challenges

1. Semiconductor supply delays impacted laptop inventory availability in March.
2. Logistics costs increased by 8.5% due to rising fuel prices.
3. Return rates for wireless earbuds increased from 2.8% to 4.1% during the quarter.
4. Certain Tier-2 distribution partners reported delayed last-mile deliveries.

Q2 FY2026 Forecast

The company expects continued growth in smart home and wearable categories. Revenue projections for Q2 FY2026 range between INR 45–48 Crores depending on seasonal demand and supply chain normalization. Planned initiatives include launching AI-enabled home automation devices and expanding direct-to-consumer retail partnerships.
